TATS 120 POLAND

TATS Integrated Airline Pathway – Poland

TATS Student Brochure

ATPL Integrated

A Smarter Route to the Cockpit

TATS 120 has been upgraded from a conventional European CPL route into a stronger airline training pathway built around Integrated ATPL structure, operational exposure, and student support.

A Different Approach to Flight Training

TATS New Training Pathway

TATS has continuously evolved its training pathways to align with global airline expectations. The Poland pathway introduces an **Integrated ATPL structure**, offering a more streamlined and standardized training experience for students.

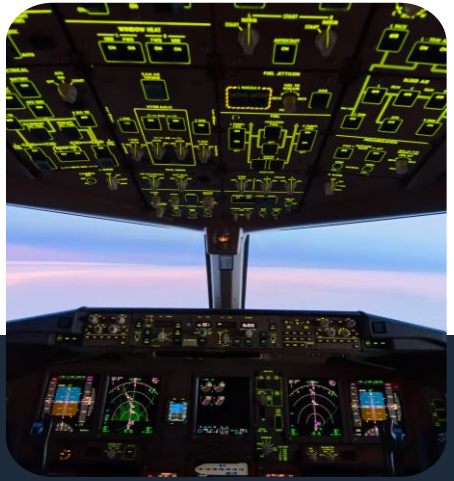

Airline Focused

Additional Certification

In an Integrated ATPL or airline training pathway, the program is broadly structured into three core components: Ground Training, Flight Training, and Simulator Training..

Integrated ATPL

Core Training Framework

01 **Ground Training**

02 **Flight Training**

03 **Simulator Training**

TATS Poland Pathway

Phases 1 to 6

STAGES OF FLIGHT TRAINING

The training progresses from basic flying and cross-country operations to advanced flying and multi-engine transition, incorporates exposure to cold climate flying conditions, followed by upset prevention and recovery training, and culminates in multi-crew, airline-style operations.

Phase 1 & 2

Foundation & Cross-Country Training

Phase 2 & 3

Advanced VFR & MEP - Training

Phase 5

Specialized A - UPRT

Phase 6

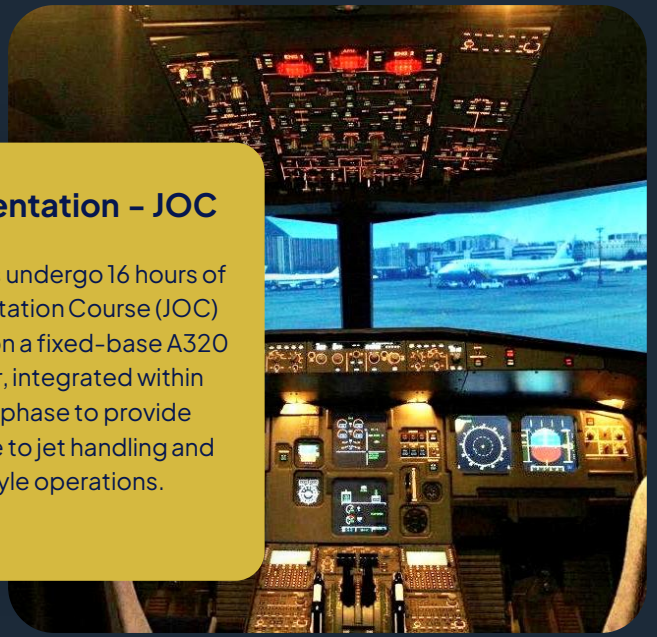

Multi – Crew Cooperation MCC

Multi – Crew Cooperation [MCC]

ME FNPT II – ALSIM

The program includes 20 hours of ALSIM FNPT II multi-engine simulator training, with loggable flight hours, providing exposure to structured, procedure-based flying environments that reflect modern airline training practices.

Jet orientation – JOC

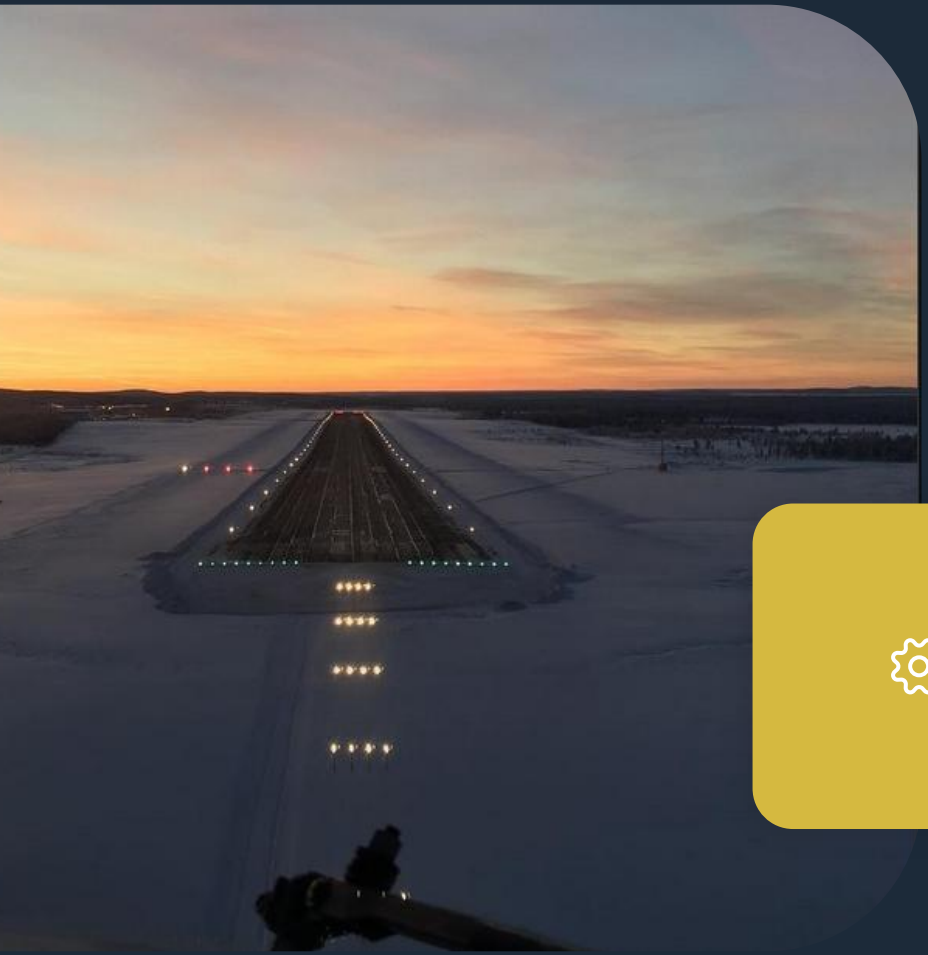

Students undergo 16 hours of Jet Orientation Course (JOC) training on a fixed-base A320 simulator, integrated within the MCC phase to provide exposure to jet handling and airline-style operations.

Additional Advantage

International Cross Country

Students complete 5 hours of International Cross-Country flying as part of their Instrument Rating training, gaining exposure to international operations, varied airspace environments, and real-world IFR navigation.

Additional Advantage

Cold Weather Exposure

Students are trained to plan and operate flights across all weather conditions, including cold weather operations. With aircraft certified for Flight Into Known Icing (FIKI), they gain valuable exposure to real-world winter flying—an experience that strengthens their operational understanding and adds meaningful depth to their logbook.

Program Deliverables

TATS 120 – Poland Pathway

This program is re-designed after carefully considering the future requirements of International and National Airlines

CPL – EASA	Multi Engine IR	A-UPRT
Int'l Cross Country	Jet Orientation – Airbus A320	245 Hrs (204 Flight +41 Simulator)

TATS Poland Pathway

Arrival & Activation

A structured Start in Poland

Once in Poland, students complete ELP, medical, skill-test alignment, and then move directly into flight training at Gold Wings. The goal is a clean, efficient transition with no wasted months. Training for Skill – test will be provided by TATS Instructors

Medical

EASA Class 1 Medical Test

ELP Test

English Language Proficiency Test

Skill Test

Maths & Physics Knowledge test

Partner School In Poland

Gold Wings – Poland

Goldwings Flight Academy delivers and flight training using globally recognized training aircraft such as **Cessna, Piper, and Diamond**, known for their safety, reliability, and ease of handling. With hundreds of thousands of these aircraft in operation worldwide, students benefit from seamless aircraft familiarity, eliminating the need for costly and time-consuming type retraining. The academy's training is led by a highly experienced team comprising airline pilots, air traffic controllers, aviation medical experts, engineers, and certified examiners, ensuring a well-rounded and industry-relevant learning experience. Under the leadership of seasoned professionals like Head of Training Arkadiusz Jesionek and a team of accomplished instructors—including world champions and active airline pilots—Goldwings has built a strong reputation. With over 1,000 graduates now flying for leading airlines such as **LOT, Ryanair, Wizz Air, Turkish Airlines, and Enter Air,** the academy stands as a proven pathway to global aviation careers.

17

Years Experience

Specific

Aircraft type and Fleet

Goldwings Flight Academy operates a diverse and well-balanced fleet including the Cessna 172, Cessna 152, Diamond DA20, Diamond DA42, Piper Seneca, and Aero AT-3.This mix allows students to progress from basic single-engine training to advanced multi-engine flying within the same academy, ensuring continuity in learning.

With multiple aircraft in each category, the fleet supports consistent availability, minimizing delays and helping students complete their training efficiently.

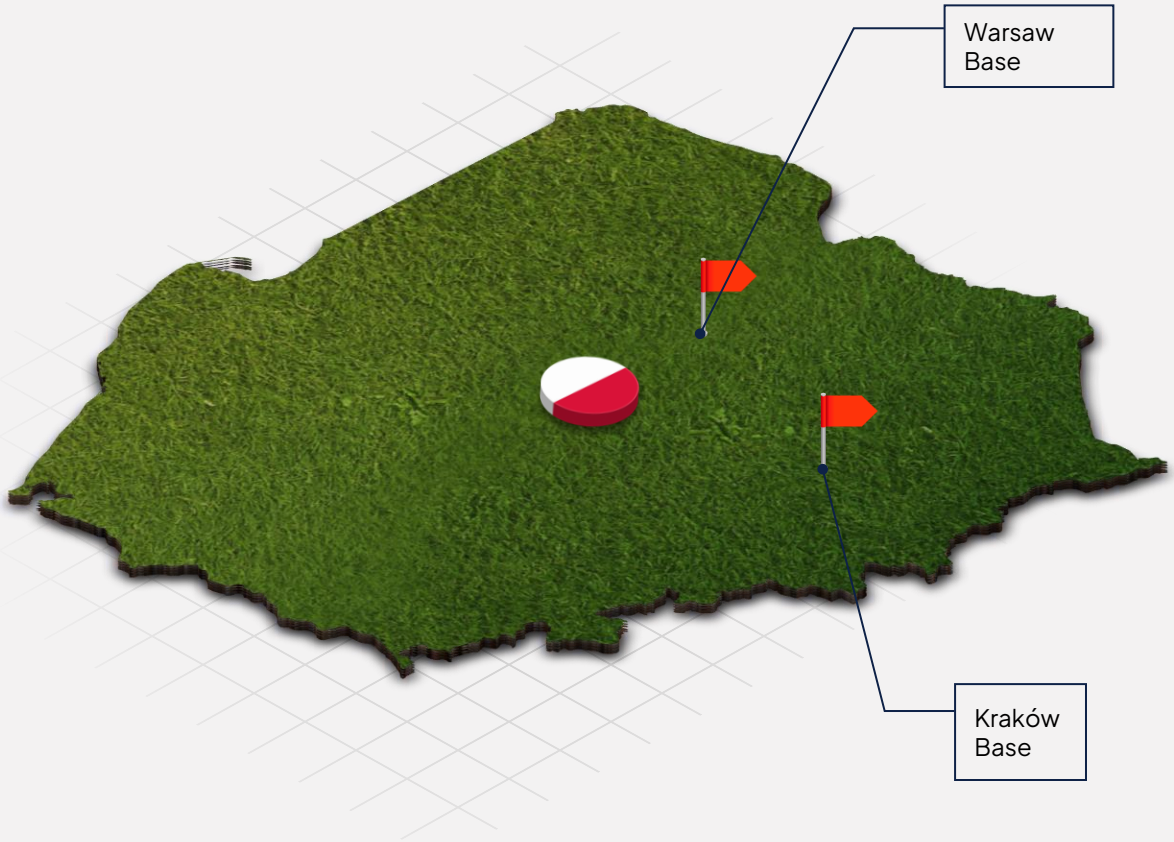

Training Fleet

- 4 x Cessna 172
- 3 x Cessna 152
- 2 x Dimond DA 20
- 1 x Dimond DA 42
- 1 x Cessna Piper Seneca
- 4 x Aero AT3
- SP IRK – Extra 300 [Used for competition training]

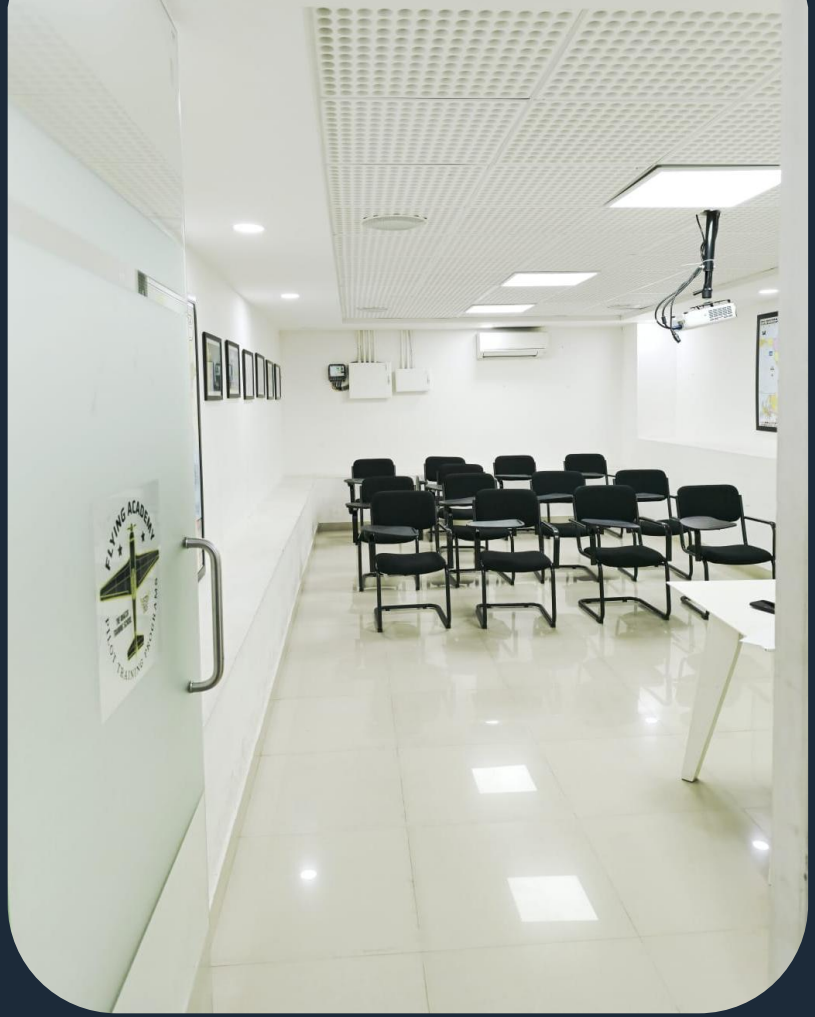

Location

Operational Bases

The training is conducted across the partner school's established bases in Warsaw and Kraków. Additionally, there may be opportunities to organize training in a more focused environment for TATS students, subject to operational feasibility.

OPTION – A

The Indian Phase

Pre-Departure Advantage in India

100% of the EASA ATPL ground training is completed in India prior to departure, enabling students to save time, reduce living expenses abroad, and arrive in Poland academically prepared and ready to progress

Cadets do 100% EASA Theory Class while their Visa is processed

- Ground Training
- Visa Processing
- Loan Process
- Flight Training

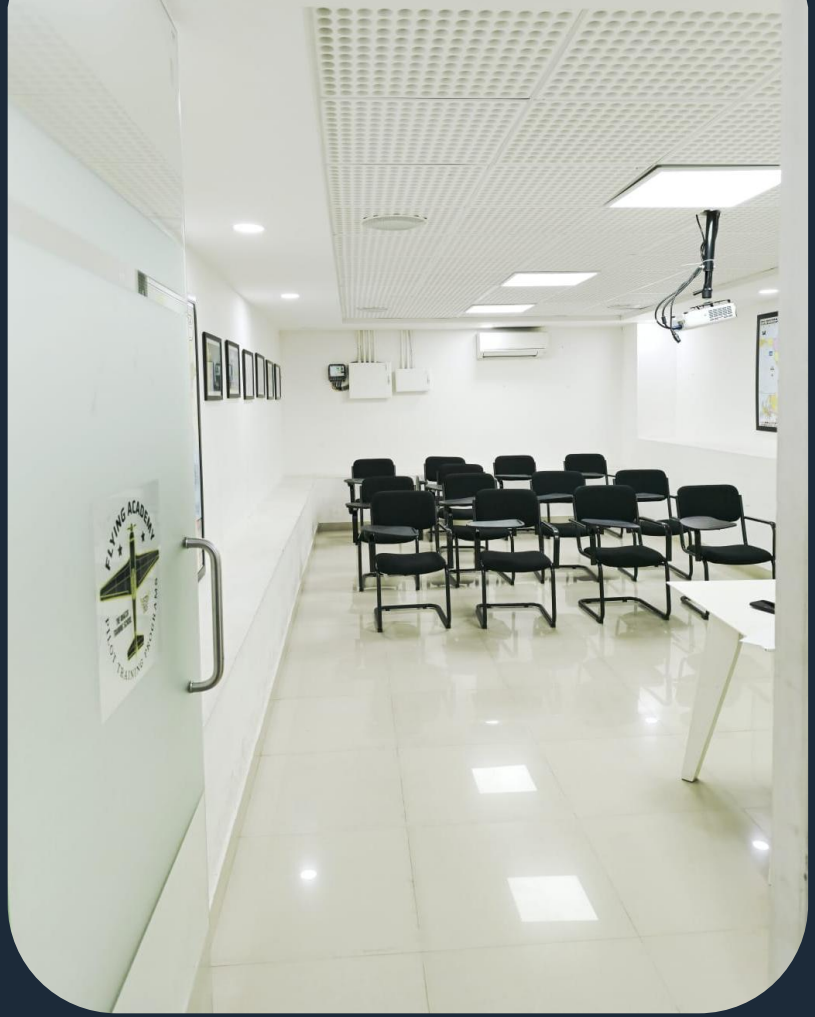

Season Optimised Training Schedule

Smart Timeline

The program is carefully structured so that they arrive in Poland in Jan with all ground class completed. Finish some of the ATPL exams and familiarization in Feb and March. Then fly continuously and finish exams as well. Saving time and living expenses in Poland.

EASA ATPL Theory – India	100%
EASA ATPL Theory Class – Poland	0%
ATPL Theory Examination – Poland	100%

OPTION – B

The Indian Phase

Pre-Departure Advantage in India

30% of the EASA ATPL ground training is completed in India prior to departure, enabling students to save time, reduce living expenses abroad, and arrive in Poland academically prepared and ready to progress

Cadets do 30% EASA Theory Class while their Visa is processed

- Ground Training
- Visa Processing
- Loan Process
- Flight Training

Season Optimised Training Schedule

Smart Timeline

The program is carefully structured with 30% ATPL ground training completed in India, followed by VFR flying before mid-November and IR training alongside ATPL exams during the winter phase, ensuring a seamless and efficient progression completed in approximately 15 months.

EASA ATPL Theory – India 30%

EASA ATPL Theory Class – Poland 70%

ATPL Theory Examination – Poland 100%
